**kabak&lin**

He influenced by rock, Turkish music, jazz, hip hop, ambient genres, performs trumpet based rock music.

Plays with four people band. In his music, he enhances the voicing connection between the trumpet and the microphone using analog and digital equipments

Started performances named "Göstembil Project" in 2011. Got winner prize on "Roxy Music Days" same year.

Released O.Y.D.H.O.G.Y. (EP) in 2012 and T.E.A.R. in 2015 his debut album.

Found chances to perform in many domestic and international festivals. Moreover, featured and collaborated many musicians on stage and records in different genres.

After long preparations second album FAIL - PLAY released with the label of Kabak & Lin Records in October of 2018.

"We perform trumpet based rock music influenced by rock, traditional sounds from this geography, jazz, hip-hop, ambient, progressive. We started a period with rehearsals for a new album in May 2016, during the summer completed more than thirty rehearsals and finished arrangements. Not only gathered collected sounds but also thought about new sounds which suit our music. After two years long period, new album cringed and completed. But before this two years long period and what we lived before, the social atmosphere affected our lives as like everybody in the country. In a chit-chat with a musician that I really appreciate and respect a phrase like "Whatever happens bad or good in life, should keep playing" motto was the basics of the name of the new album. Concerts, festivals, exhibitions were made in the country despite the social atmospere and creations, shares and experiences of many friends in different disciplines were our encouragement.

Death, breakups, dissatisfaction, lack of self-confidence and other bad encounters are possible but we keep playing."

Barış Demirel : Trompet, Vokal (trumpet, vocal)
